

IEC

Center of informal education
eCoworking space

New technology - Environment - Activism

“IEC is an ecosystem based
on the needs of local and
national ICT and
environmental communities.”

—iRevolucija team

The content

Through the presentation, we will present the **concept of the IEC project** and answers to frequently asked questions:

1. What is **IEC**?
2. How iRevolution acquired **the integrity to implement the IEC project**?
3. **How IEC will work** and what it will serve?
4. **IEC** is an example of **a sustainable network**
5. **IEC** as a **generator of local support**
6. This is how the **financial set-up for project** implementation looks like
7. What does an **investment in IEC** bring??
8. **How to** get involved in **IEC development**?
9. **They supported the development of this concept**
10. **IEC development timeline**
11. The **end of contractor works** marks the **beginning of IEC's work!**
12. **We are writing history now**, and in order to write it in the future, **it is important to support the new place and community**

iRevolution as a generator of change!

Did you know that iRevolution launched a similar project **in 2016** and is still active today? For the same period, **iRevolution's results** are measured through:

- Launch of the **first co-working space** in Valjevo;
 - Educated more than **1000 citizens** of Valjevo **in ICT**;
 - Organized **6th conference** on the latest internet trends;
 - The organization of **three Climathons in Valjevo**, the largest climate actions in the world;
 - Networked stakeholders and **57 unemployed persons** who received business engagement;
 - She influenced the opening and sustainability of **7 companies/entrepreneurial shops**, with which she still maintains business cooperation today;
 - The **eLaboranti team** won the state championship in **LEGO robotics through STEAM education** in their first performance at the state championship and then won **second place at the Eastern European Championship in Celje**;
 - **Implementation of more than 50 projects** in ICT during its 8 years of work;
 - Implementation of **11 projects** in the field of environmental protection;
 - Established a **mechanism to inform citizens** in real time about air quality;
 - Membership in communities in ICT and environmental protection that are in **national and European frameworks**;
- 

And, most importantly, all the results were created by the approach of **free, informal education!**

CNE is an ecosystem based on the needs of local and national communities.

By listening to the needs of the sector of civil society organizations, freelancers, activists, programmers, digital nomads, youth, stakeholders and other entities, we are creating **a new community** that will be a generator of changes in western Serbia.

CNE is a meeting ground technology and healthy environment

New Technologies

We use it to **improve the community** and empower education

Environment

It is endangered and therefore we must resist the current practice

Civic participation

is necessary so that everyone has equal rights **and participation in decision-making**

CNE is a space dedicated to sharing knowledge and resources. It will contain:

Space to work

Meeting space

Chillout caffe

Talk box

Meetup space

Gaming zone

(psssst, let's whisper to you) The CNE draft version of the conceptual solution looks like this:

With **resources available 24/7**; **Strong** internet connection; Separate **desk**; Meetings **office**; **Parking** place; **Event** organization; Access to **community resources**; **Alcohol-free**; **No tobacco** smoke; Where **recyclable waste** is disposed of; In which **ecologically** acceptable **solutions** rule; **Surrounded by nature** with a view of one of the largest monuments to anti-fascism!

CNE is an example of a sustainable network

Coworking

With the income from renting **coworking** spaces, CNE becomes an **independent**, sustainable place

Events/Education

By organizing **educational workshops**, iRevolution or Partners will co-finance the **work of CNE**

Project participation

Implementation of **civil society** programs/projects through independent or **partner initiatives**

CNE as a generator of local support

Coworking

Access to resources: local actors, organizations, informal groups and individuals will have a **reduced price!**

Events

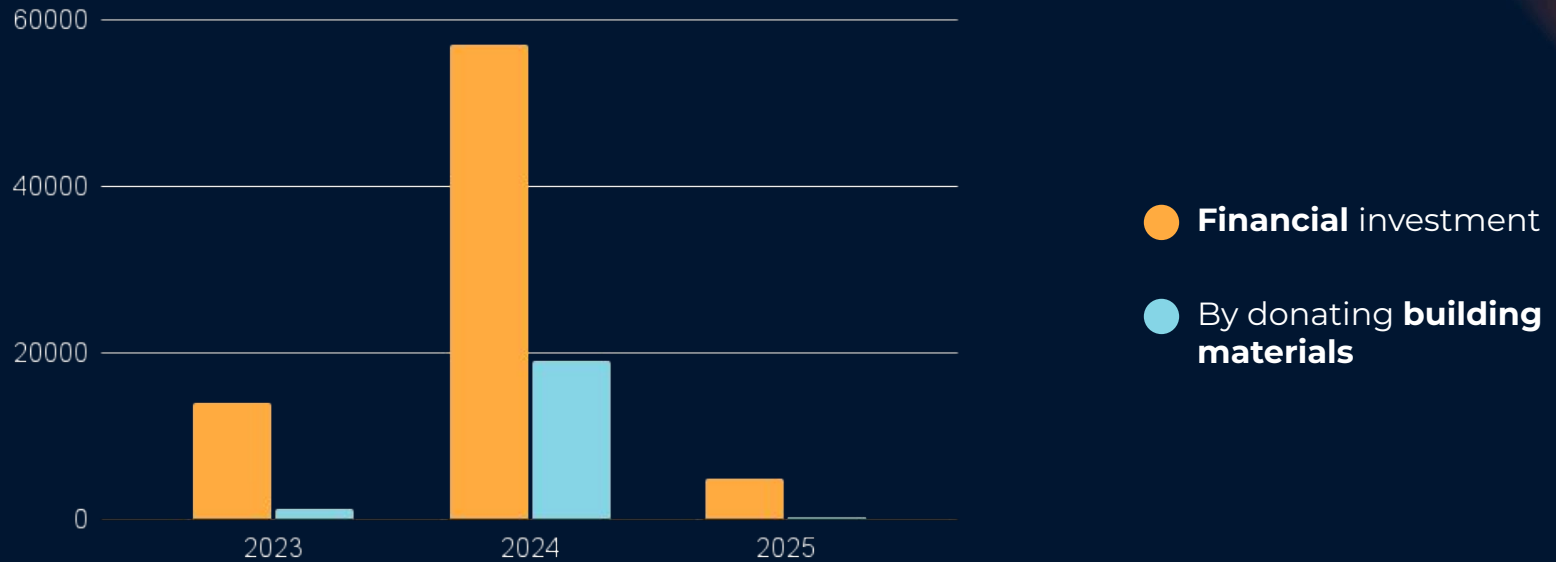

By ceding time to organize events and access informal education to local initiatives, **CNE will make it free**

Participation

iRevolucija with partners will implement **free education** projects for all citizens in the local area

How to get involved in CNE development?

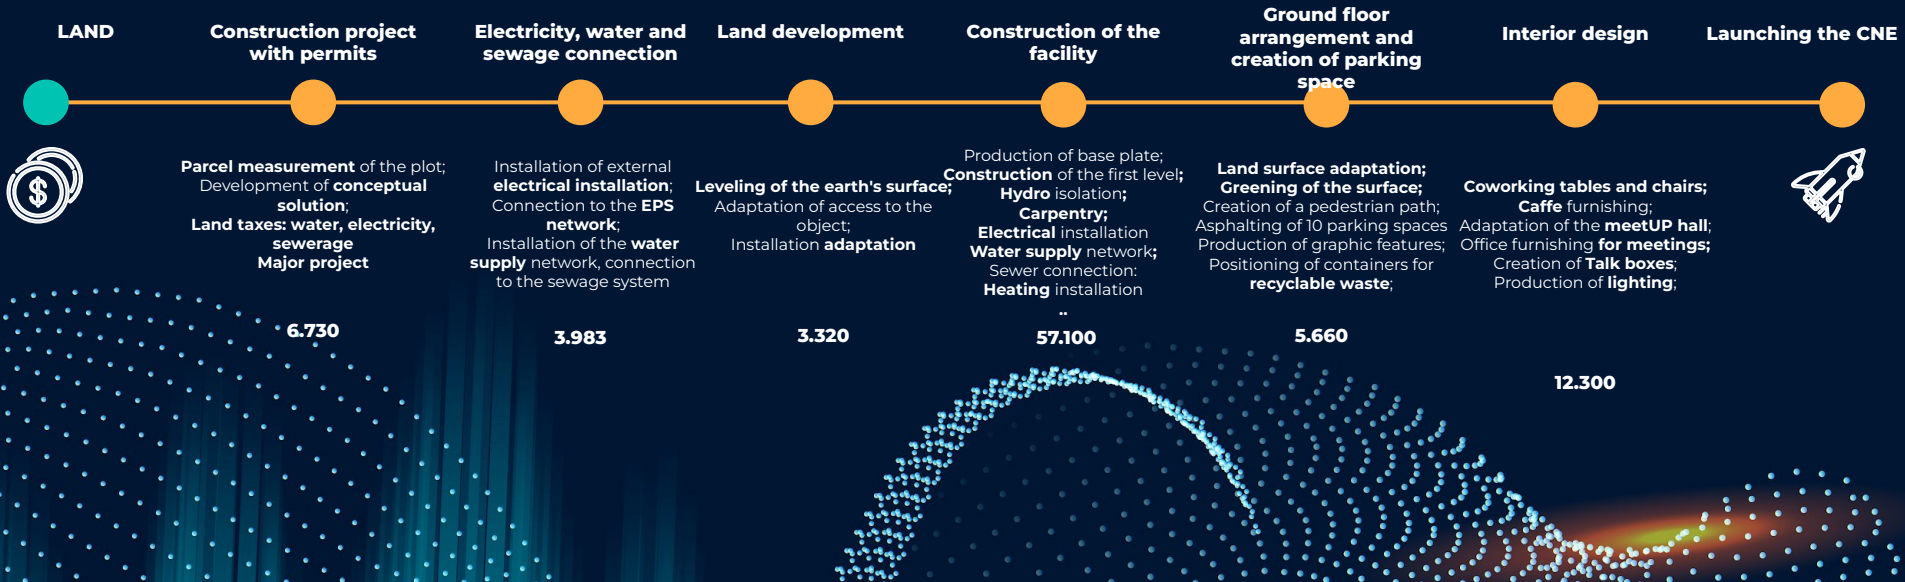

Donations are projected in **euro currency and deviations of **10%** are possible.*

*The projection is calculated in **euro currency** and deviations of **-+ 10%** are possible.

Financial set-up for building the facility

- With your financial investment, you influence the progress of project implementation, and that's why **your support is important to us**
- The donation of **building materials** in accordance with the principles of ecological construction helps us to redirect significant funds to other activities

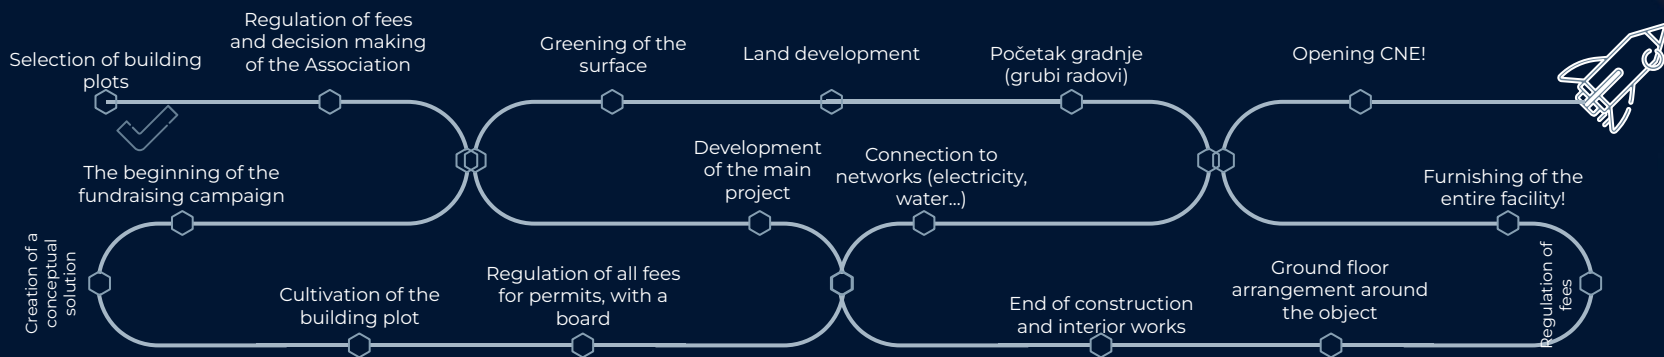

What does an investment in CNE bring?

1. Available resources of the iRevolution organization in the field of **ICT and environmental protection**
2. Sustainable and **free informal education** intended for the citizens of Valjevo and Serbia
3. Launching a **sustainable mechanism** for improving the quality of life of Valjevo residents
4. Strengthening the network at the **national and international** level with partners
5. **Employment of young** and unemployed persons
6. **Support** to local communities **for environmental protection**
7. Development of the city of Valjevo through joint **projects of civil society organizations**
8. Area in Valjevo where **alcohol and tobacco smoke are prohibited**
9. An opportunity to work individually or in a community in a **natural environment** near the city center
10. **Free organization** of events for organizations, informal groups or individuals
11. **And another 100+ good reasons for which there is no place in the presentation!**

Implementation Timeline

CNE project

The timeline was created under ideal conditions for a fundraising campaign and **there may be deviations in the implementation timelines*
